Dear Dr. Holman:

We have received your letter of November 13 and are interested in the plans for a conference to bring together workers in Lipid Research for review and discussion of progress and new developments. I am pleased to report that The Council for Tobacco Research has authorized a contribution of $2,500 for support of the conference.

We hope to send a staff member to represent the Council and bring back information about the reports and discussions. You are familiar with our policy of confining contributions to subjects on the basic scientific level rather than industrial applications.

In any case our expectation and hope is that the meeting will be highly informative and stimulating.

With kind regards,

Sincerely yours,

Robert C. Hockett, Ph.D.
